ScreenSteps | Knowledge Transfer

In statistics and quantitative research methodology, a data sample is a set of data collected and/or selected from a statistical population by a defined procedure. The elements of a sample are known as sample points, sampling units or observations [citation needed].. Typically, the population is very large, making a census or a complete enumeration of all the values in the population either ...

Sample (statistics) - Wikipedia

When it comes to doing something right, sometimes it helps to see common mistakes others make. So here are 14 examples of common mistakes you might be making (and yes, I even included a mistake we made in our own documentation).

14 Examples of Documentation Mistakes You Are Making
