1. Introduction. In this review article, we look at adaptation to climate change through the lens of development economics. Since the development literature has firmly established the role of weather risk as a source of income volatility for the poor, and climate change is expected to increase this risk, we review the range of risk-coping mechanisms available to poorer households, with a focus ...

Out of the three studies, London et al.'s (2010) constraint framework is the most elaborate. He differentiates between productivity/value creation constraints and transactional/value capture constraints. While the former occur within the boundaries of the firm and mostly concern its productivity and/or value creation, the latter emerge outside the boundaries of the firm and affect its ...
