Round Robin Reading (RRR) has been a classroom staple for over 200 years and an activity that over half of K-8 teachers report using in one of its many forms, such as Popcorn Reading. RRR's popularity endures, despite overwhelming criticism that the practice is ineffective for its stated purpose: enhancing fluency, word decoding, and comprehension.

Bloom's taxonomy is a set of three hierarchical models used to classify educational learning objectives into levels of complexity and specificity. The three lists cover the learning objectives in cognitive, affective and sensory domains. The cognitive domain list has been the primary focus of most traditional education and is frequently used to structure curriculum learning objectives ...
