Darwin's Dangerous Idea: Evolution and the Meanings of Life is a 1995 book by Daniel Dennett, in which the author looks at some of the repercussions of Darwinian theory. The crux of the argument is that, whether or not Darwin's theories are overturned, there is no going back from the dangerous idea that design (purpose or what something is for) might not need a designer.

Tests are called "high-stakes" when they used to make major decisions about a student, such as high school graduation or grade promotion. To be high stakes, a test has to be very important in the decision process or be able to override other information (for example, a student does not graduate if s/he does not pass the test regardless of how well s/he did in school).
