

the dying city postwar pdf

Postwar: Late 1940s through 1950s. As many great cities lay in ruins after World War II, New York City assumed a new global prominence. It became the home of the United Nations headquarters, built 1947–1952; inherited the role from Paris as center of the art world with Abstract Expressionism; and became a rival to London in the international finance and art markets.

History of New York City (1946–1977) - Wikipedia

During the later stages of World War II and the post-war period, German citizens and people of German ancestry fled or were expelled from various Eastern and Central European countries and sent to the remaining territory of Germany and Austria. After 1950, some emigrated to the United States, Australia, and other countries from there. The areas affected included the former eastern territories ...
