environmental one, whereas the environmental dimension integrates an indicator of the concern to environment in general in comparison to other concerns, which should be rather used to weight the environmental item among others.

### **How to define the environmental dimension of sustainability?**

must be addressed as part of a larger definition of environmental and ecological justice. Certainly, there are key differences in applying an expanded notion of social justice to the question of environmental justice on the one hand (justice among humans on environmental issues) and ecological justice on the other (justice toward the natural world).

### **Three Dimensions of Environmental and Ecological Justice**

During the first United Nations Environment Assembly (UNEA-1), in June 2014, ministers concluded that the post-2015 sustainable development agenda should fully integrate economic, social and environmental dimensions in a "coherent, holistic, comprehensive and balanced manner".
