Musical memory refers to the ability to remember music-related information, such as melodic content and other progressions of tones or pitches. The differences found between linguistic memory and musical memory have led researchers to theorize that musical memory is encoded differently from language and may constitute an independent part of the phonological loop.

Music-related memory - Wikipedia

Millennials tend to disregard the state of our nation in either apathy or cynicism, and it's easy to become caught up in that mindset. This class showed that there truly is no government set up for representation and equality like ours and that is something that we should never take for granted.
