It can make it easier to think that classes map to tables, and in a way they do, but not always directly. Except for very simple databases you will never have a one-to-one mapping of classes to tables, something you will see later in this article with regards to inheritance mapping. However, a common theme that you will see throughout this article is that a one class to one table mapping is ...

FASTQ format is a text-based format for storing both a biological sequence (usually nucleotide sequence) and its corresponding quality scores. Both the sequence letter and quality score are each encoded with a single ASCII character for brevity.. It was originally developed at the Wellcome Trust Sanger Institute to bundle a FASTA formatted sequence and its quality data, but has recently become ...
