James Mickens is a researcher in the Distributed systems group at Microsoft's Redmond lab. His current research focuses on web applications, with an emphasis on the design of Javascript frameworks that allow developers to diagnose and fix bugs in widely deployed web applications.

The Night Watch - USENIX

And sure enough, ask a random programmer when they do their best work and there's a high chance they will admit to a lot of late nights. Some earlier, some later. A popular trend is to get up at 4am and get some work done before the day's craziness begins. Others like going to bed at 4am.
